

All Active—Women's Performance Undershorts

All Active Performance Undershorts employs a unique dual action construction for pure performance and movement. Made from our special highly breathable bi-texture polyamide fabric.

- Sun protection factor of 50+
- Average Weight 50g

Each fibre is impregnated with a durable hydrophilic finish for exceedingly quick moisture transportation (wicking).

Technically innovative seamless hips and legs provide total 'chafe free' comfort.

A distinctive fine knit mesh zone, strategically placed down the base of the spine and down across each lower buttock of the garment. Rapidly transports (wicks) perspiration and body heat to the outer surface of the garment to disperse and evaporate.

Same distinctive fine knit mesh zone is located under the groin area to maximise dispersal of body heat and perspiration.

All Active—Women's Performance Bra Top

All Active Performance Bra Top employs a unique triple action construction for pure performance and movement.

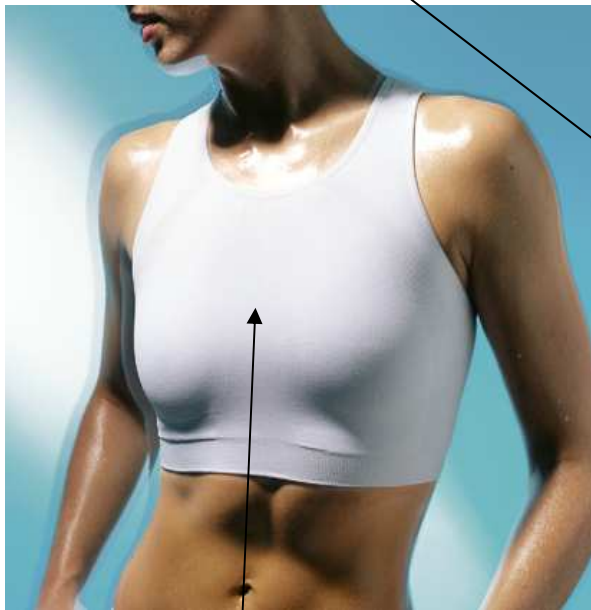

Ergonomically designed non-slip straps feature stretch rib on top of the shoulder for ultimate support. A flat seam is utilised to stop chafing and rubbing.

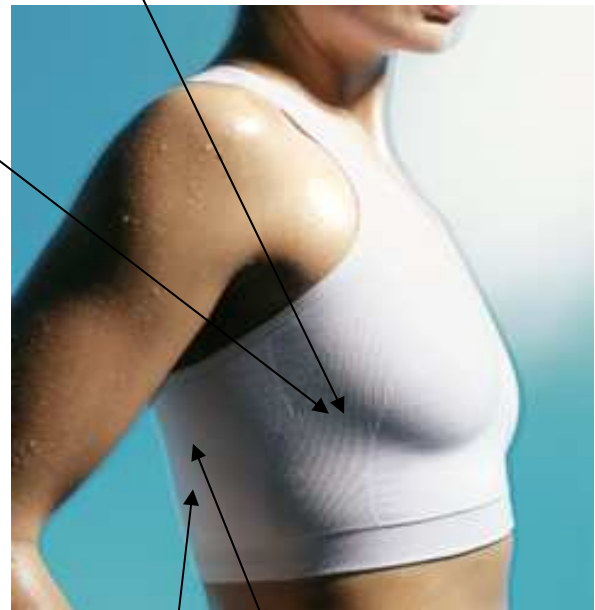

All Active Performance Bra Tops are double thickness for maximum support but without the weight.

Technically innovative seamless body for total 'chafe free' comfort.

Stretch rib knit across the top and down the side of the bust gently shapes and supports.

A highly breathable fine knit shaped bust Area aids comfort and movement and speeds dispersal of body heat and perspiration.

The entire inside and back is knitted in a fine mesh eye-let knit which quickly transports (wicks) perspiration and body heat to the outer surface of the garment.

All Active—Women's Performance Sleeveless Top

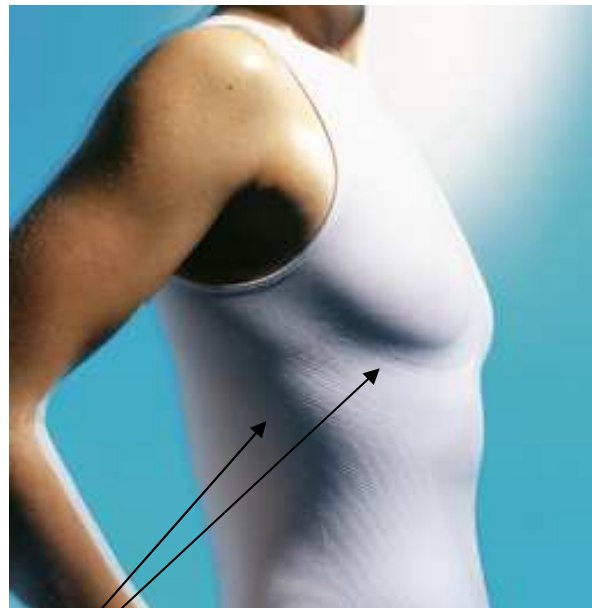

All Active Performance Sleeveless Top employs a unique dual action construction for pure performance and movement.

- Sun protection factor of 50+
- Average Weight 95g

Each fibre is impregnated with a durable hydrophilic finish for exceedingly quick moisture transportation (wicking).

Manufactured from super soft polyamide yarn, the fabric features a smooth, technically innovative seamless body for total 'chafe free' comfort.

Distinctive fine knit mesh zones are strategically placed down each side of the garment which quickly transports (wicks) perspiration and body heat to the outer surface of the garment to disperse and evaporate.

The same distinctive fine mesh zones under the bust maximises dispersal of body heat and perspiration.
